1. [REDACTED] reported to me that he was briefing Joint Staff group on the electromagnetic problem and was about to confer (with General McClelland) with [REDACTED] on the question of suspending manufacture of two transmitters. I shall be guided by [REDACTED] but probably we should not incur, as a government, the economic waste in cancelling the transmitters because, if not a new Voice of America, RFE or RFA could use the equipment.

2. Briefed [REDACTED] on IAC discussion of the Amoss problem. Only real agreement was a pooling of information and joint consideration of desirability of legal action and/or counter publicity.

3. Said DD/I point of view was in favor of publishing [REDACTED] article on Soviet views of America which is entirely speculative. He will proceed to get formal I&S and National War College clearance and will not be identified in print with CIA or intelligence.
